WAR FOOD ADMINISTRATION

Washington 25, D. C.

August 18, 1943

ADMINISTRATOR'S MEMORANDUM NO. 24

Applicability of Departmental Regulations to Employees
of the War Food Administration

Pursuant to the provisions of Regulation 1114, signed by the Secretary and the Administrator on July 10, and in order to eliminate any misunderstandings which may prevail, you are advised that Departmental Regulations are applicable to all employees of the War Food Administration. The nature of the Administration's operations are such as to render inapplicable particular regulations to the employees engaged therein. The context of the regulations are sufficiently clear in most instances to indicate whether or not they are applicable. However, when this is not the case, employees of the Administration will be guided by findings which the Administrator or other official authorized to act for him shall make from time to time as to the applicability of specific regulations.

J. M. Bradley

Deputy Administrator

1. *Leucosia* *leucosia* (L.) *leucosia* (L.) *leucosia* (L.) *leucosia* (L.)

1. *Chlorophytum comosum* (L.) Willd. (Liliaceae) (Fig. 1)

17. *Urtica dioica* L. (Urticaceae) (Fig. 17) is a tall, erect, branched, hairy annual or perennial herb, 1-2 m. tall, with a thick, hollow, reddish stem. The leaves are opposite, petiolate, ovate-lanceolate, 10-15 cm. long, 5-7 cm. wide, with serrated margins and petioles 10-15 cm. long. The flowers are small, greenish, in whorls, with a strong odor, and are arranged in branched cymes.
